

# *A Time for Phonics*

One Thousand Most Commonly Used Words  
Phonetically Decoded

Dana M. Merritt MS CCC  
Speech-Language Pathologist

# 1000 Words A-Z

*A Time for Phonics* has phonetically decoded the 1,000 Most Frequently Used Words in the English language. These words are from *The Reading Teacher's Book of Lists*, Fourth Edition © 2000 by Prentice Hall. The authors of that list are Fry, Kress, and Fountoukidis. They say that the first 25 of these words are found in 1/3 of all printed material. They also say that the first 100 words are used in about 1/2 of the all written material. Finally they say that the first 300 words are used in about 65% of all written material. *A Time for Phonics, Level One, Steps 1 through 10*, is so powerful that it has been used to phonetically decode a majority or 89% of these 300 words. To prove the full-power of my system, I am posting the Key to decoding every one of these 1,000 words. The first list/link will have the 1,000 words placed in alphabetical order. So if you want to know how to decode the word "two" you would find it on the 1000 words A-Z, as #71. Then go to the 1000 Most Frequently Words Phonetically Decoded by *A Time for Phonics* list/link and find Words 51-75. Go down to you see the word "two" and you will see it belongs in Step 9. Enjoy #833! Through *A Time for Phonics* you and your students will enjoy learning and the power of positive neuroplasticity. You can buy *A Time for Phonics, Level One* Second Edition here.
